

Advance Your Lymphoedema Practice

Key dates 2027

The Head and Neck and Level 2 Advanced Lymphoedema Management courses combine self-paced online learning, interactive virtual sessions and face-to-face master classes to strengthen knowledge, clinical reasoning and practical skills.

Online learning prepares participants for expert-led discussions on assessment and management. Face-to-face master classes focus on refining practical techniques, exploring complex cases and sharing ideas with experienced practitioners and fellow participants. Level 2 courses also include case-based assignments to develop and reflect on clinical reasoning.

Required online learning must be completed before the face-to-face component, and 100% attendance at the relevant master classes is required. Refer to the table below for the dates and components that apply to your chosen course.

DATE / TIME	LEARNING ACTIVITY	Complete	Head & Neck	Upper Limb	Lower Limb	Upper & Lower
